Arrêtez les mauvais traitements - Restaurez le respect

EAPO Webinar Series

EAPO WEBINAR

MAiD
**Medical Assistance
in Dying:
Impacts on Patients
and Families**

OCTOBER 19TH, 2021
1:00 PM - 2:30 PM

[**REGISTER NOW**](#)

Register in advance for this webinar. After registering, you will receive a confirmation email with information about how to join the webinar.

At EAPO, we hear from community partners, seniors' groups, their families and caregivers, wanting to understand MAiD (including how to access it), the impact the recent changes to the legislation will have, and what safeguards are in place to protect vulnerable persons.

There has been extensive media coverage as well as numerous reports written about this subject, yet there are still a great many unknowns and service professionals and public serving agencies alike, are requesting more information about MAiD.

EAPO is hosting this webinar to help inform individuals about MAiD, to provide information and links to community resources available to patients and families, and to help understand legal requirements and potential options. The session will provide participants with a forum to ask questions.

We are pleased to have among our speakers: a practitioner in the field, **Julie Campbell**, NP Lead, Nurse Practitioner and MAiD Assessor and Provider, and **Jocelyn Downie**, University Research Professor in the Faculties of Law and Medicine at Dalhousie University to provide clinical and legal perspectives on the matter. Joining them will be **Mr. Al Gretzky** who will share his wife Marylin's story, of choice and love and his experience speaking to the Senate of Canada as Bill C-7 was debated.

**HALF-PRICE TICKETS
WITH CLAY ONLY \$8!**

AGES 13-18
FREE FOOD + FREE RIDES

**CLAY AT

DOUBLE VAX REQUIRED

Calling all Knitters!!!

Summer has moved into fall and soon the days will be getting colder and snowflakes will begin to fall. Everyone who is able, please warm up your knitting needles and start producing toques and neck warmers for our seafarers.

We all know that the winds that blow around our beautiful Lake Superior are extremely cold, even on warm summer days!

The time will creep up super-fast when we will be busy packaging Christmas Gift Bags for those same hearty folks who sail the stormy seas.

Please do what you can to help fill the Gift Bags with warm items and warm their hearts because of your caring!

Thank you!

HUMAN TRAFFICKING CASE COULD HAVE MORE VICTIMS
TRAFFICKING 'REALLY SAD': 2 NEW CASES A WEEK BEING SEEN BY 1 HELP GROUP

Learn how to recognize, respond and help build a safer community by combatting human trafficking.

Human trafficking is one of the fastest-growing crimes worldwide. We all encounter trafficking situations and need the tools to respond. This training, provides skills to recognize and provide support, including knowing the signs, who is at risk, stages of human trafficking, and how to engage with survivors. Understand how to step in and intervene. The training is brief but has the potential to save lives.

Who is this training for?

This training is available to any individual, business, organization, or group looking to better their understanding of human trafficking and to improve their engagement with survivors of this crime.

Each training session can be tailored to your organization or business, with a focus on who your workforce is, along with customer and audience base.
